¹Liberal Arts Core Requirements in *Undergraduate Catalog*

²Course has prerequisite. See corresponding Undergraduate Catalog

³Consult with pre-engineering advisor for engineering school requirements

ADDITIONAL ITEMS RELATED TO THE MAJOR

The Quantitative Reasoning Liberal Arts Core requirement must be satisfied by MAT 120, Precalculus.
 The Natural Sciences Liberal Arts Core requirement must be satisfied by PHS 211, Physics for Science and Engineering I.
 Liberal Arts Core courses should be chosen to satisfy FHU and engineering school requirements.
 CHE 321 and CHE 322 may be recommended for Chemical Engineering, check with engineering school.
 ACC 231 and ACC 233 may be recommended for Industrial Engineering, check with engineering school.

The following guidelines are important. Failure to follow these guidelines may delay graduation.

1. Plan schedules carefully. Plan to fulfill prerequisites for future courses.
2. Do not alter the sequence of courses without consulting with your academic adviser as not all classes are offered every semester.
3. Before the enrollment period, check to make sure holds will not prevent you from registering.
4. Register for classes early during the registration period to secure classes.

The Four-Year Degree Plan is a suggested plan of study. This plan does not replace the *Undergraduate Catalog*. The *Undergraduate Catalog* provides the official listing of program requirements.
