## NEEDED

... more boys interested in working for the SKY ROCKET. Do you want your SKY ROCKET to be "henpecked" all year? If not, then see the editor or the sponsor of the paper.

Don't wait, do it today so we can see more of a male viewpoint in our next issue.

## Wait And Think

Wait! Before you start trying to outtalk everyone else at that popcorn party. Think! Will I be disturbing someone in the next room?

If you have been confined to your bed sometime within the past few weeks, you have probably noticed the noise that goes on in the dorm. When you are a part of the commotion quite often you do not realize you might be disturbing others.

Remember, we should try to be as considerate of our big family in the dorm as we would be our family at home.

## Support Those Lions

Sometime within the next few weeks, our 1957-58 basketball season will get underway and from all reports we are to have a very fine team.

So far this year, school spirit has been great; and the coming ball season will be another outlet to show your enthusiasm.

You can show your school spirit by attending the games and giving all the support you can to the cheerleaders and band in their efforts to lead the boys on to victory.

We want to make this 50th Anniversary year the very best year ever for school spirit.

## Start An Epidemic

Smiling is contagious. Quite often the old complaint pops up that "people don't speak to me or aren't even friendly."

Can you count on your fingers the number of people to whom you smiled and spoke today? If so, then maybe it is you who needs to be a little friendlier.

A bright, cheery smile and a kind, courteous word might be the thing to lift a person's spirits. Let's try to remember to take time to be a little more friendly, a little more kind, a little nicer and more courteous wherever we may be on the campus.

To have a friend, one must be a friend. Remember that smiling is contagious and you might be the one to start an epidemic.

SCOTT SPEAKS TO  
TRAINING CLASS

"Going Onward" was the subject of the first program that was presented to the Girls' Religious Training Class. By popular demand, from the second year girls, this "heart to heart" talk by Thomas Scott has been presented three consecutive years.

On October 21, Orlan Miller gave the girls something to remember and to apply to their lives in his speech "Three Things to Remember".

The officers are: Carol Cochran, president; Jean Newman, vice-president; and Linda Flippen, Lorraine Erickson, Joan Harwick, Betty Fox, and Delores Smith are the program committee.

Other programs to be presented are: "Teaching the Bible to Children", "Motherhood", "Courtship, Marriage, and Divorce", "When Loved Ones Pass on", "Growing Old In Christ", and "Teenage Problems".

Final Count For Fall  
Quarter Shows  
29 States Represented

Final count reveals that students from 29 of the 48 states are enrolled in Freed-Hardeman for the fall quarter. Tennesseans are on top with a grand total of 173.

Ranking in order are Alabama 40, Mississippi 36, Kentucky 28, and Michigan 24. West Virginia is represented by 14, Illinois by 13 and Arkansas by 11.

Other students hail from Arizona, California, Colorado, Florida, Georgia, Indiana, Louisiana, Missouri, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Texas and Wyoming.

Kansas, New Hampshire, New Mexico, New York, Virginia and Wyoming each have one representative.

Students from foreign countries total 12 with Cuba contributing 5, Japan 2, South Africa 2, Korea 1, Brazil 1 and Canada 1.

## Offbeat--

Seen around campus, new style umbrellas! Standing in the doorway of the cafeteria watching it rain so hard no one can get to the dorms.

"S'cuse us," speaks a muffled voice from behind. Then a huge pasteboard box walked by on six legs.

It seems somebody swiped the trash box from the basement of the girls dorm. No trash, but three girls thought it made a good umbrella.

....  
"Take a ride?" "On that thing?" "Me?" asked Gurganus.

"Sure."  
So around the quadrangle went the professor ... on a hand truck, pushed by three freshmen.

....  
The Golden Rule of Fractions: "Whatsoever you do to the denominator, do also unto the numerator." Witt.

....  
Attention! Charles Brown wants his American History students to know that "starving time" refers to a period in Jamestown history and not their missing lunch periods.

....  
Strange mumblings from second year students are being heard on campus these days: Reason: The first eighteen lines of Chaucer's *Canterbury Tales* in Middle English. One frosh's comment was: "Boy, does that stuff need patching up."

....  
Actually Eugene England was trying to save Danny's life ... When Ziekefoose told his first aid class to try cutting off the pulse by applying pressure to the digital pressure points, Danny Eubanks found that the thumb buried in his collar bone wasn't doing its job. It was on the wrong side.

....  
Latest of the "Happy" songs sung in the cafeteria was "Happy Reunion" sung to Eugene Springer and Samantha Hall after they had served their full two weeks on campus.

....  
A severe disease, called compassion, struck Robert Atnip early one morning and caused him to postpone the scheduled Biology test until Thursday. All students survived the shock.

....  
Comment of the month. Visitor: May I come in and see you?  
Patient: Sure, come on in and get the flu.

## Hodges' Podges

By Jo Ann

Attention Students! Do you feel over-worked and think you need a vacation? If so, then read these eight cracker-jack ways to catch the flu.

First of all, you must find a friend who has it so badly he thinks his room is a merry-go-round. Then proceed as follows: Sleep with him if it is at all possible. Eat with the same utensils, and drink from the same glass. And by all means, use the same towel and washcloth. Also you can go without a coat on rainy days; or get real hot, and then run out and wade in the closest mud puddle. Two sure ways to break down your resistance are to stay up all night and quit eating hot meals. Oh be sure and do not take the

flu shots. Try all these suggestions and if you still don't have a red nose, a high temperature, a headache, a tubercular cough and watery eyes, then become resigned to the fact that you are unusually healthy and that fate is against your getting that vacation.

....  
Say, how do you like the idea of all those potted plants in the library? If not, then you better get those twenty-five books you checked out for research purposes (THE TERM PAPERS) back on time. Why? Simple, the money collected from overdue books is paying for those plants. Miss Rainy reports that over six dollars has already been collected. Well, what do you want, a library or a florist?

## McAllisters Featured November 14

Mr. and Mrs. Roy McAllister, duo piano team, will appear in concert November 14 at 7:30.

Mr. McAllister is chairman of the Piano Division of the Department of Music at the University of Alabama. He is soloist, chamber musician, and teacher.

## Japanese War Experience Told To Speech III By Herrin

"Imprinted in my mind as long as I live will be the sight I witnessed on December 23, 1948," John S. Herrin told Speech III as he held them spell-bound while he described the hangings of Tojo, Hirota and Dohihara.

"At the age of seventeen I entered the United States Army and soon afterwards arrived in Japan. On October 15, 1948, I was assigned to guard duty at Sugamo prison in Tokyo.

"I thought the assignment would be regular army guard duty, but was greatly surprised when I found that we would be guarding Tojo and other war criminals.

#### Trials Begin

"Our job began at 4 a.m. each morning when we arrived at the prison. At that time, the war criminals were transferred in armored buses from the prison to Yokohama where the Japanese War Criminal Trials were being held.

"Each day we were given a different prisoner so during those weeks I guarded Tojo, Hirota and many others whose names I cannot recall.

"On November 12, 1948, the International Military Tribunal in Tokyo rendered its verdict in the trial of Japan's Wartime Military and Civilian leaders on charges of the war crimes they had planned and brought about against the Philippines, the USSR and elsewhere.

#### To Be Hanged

"General Hideki Tojo, wartime premier, Koki Hirota, former civilian premier, and General Kenji Dohihara of Manchurian fame were sentenced to be hanged. Also, sixteen generals, admirals and civil leaders were given life imprisonment. Two others received terms from seven to twenty years.

"It has been almost nine years but I can still remember vividly December 23, 1948... the date of the hanging.

"That night officers and high officials from various countries

and the guards made up two lines. The lines of men faced each other and extended from the prison door to the gallows which was set up in the court yard.

"My knees shook from the bitter cold, and thoughts of whether or not I could watch those men die raced through my mind.

"I was fifth in line from the gallows so I could see their faces for a rather long period of time. As they walked slowly from the prison door toward the gallows, Tojo and Hirota never changed their calm expressions, but the Manchurian seemed scared.

"At the platform, black hoods were placed around their heads. Then, in succession each was led up the steps, turned around and the noose was neatly placed around his neck. The officer in charge of the prison pulled a rope that released the floor under the prisoner's feet."

### PHILOS DOUBLE SINCE LAST YEAR

Membership of the Philomathean Society this year is almost double last year's count.

Dick Hackett is president for the first six weeks, Sylvia Johnson, first vice-president, Mark Hicks, second vice-president, Janice McCoy, secretary, George Dumas, sports captain and Bill Lambert, representative to the trophy committee.

The committee appointed to write the history of the society include Shirley Hysmith, Tish Maynard, Carol Casper, and Mary Kay Edwards.

The first chapel program this year was called "Fifty Year Ago, the Present and Fifty Year in the Future."

An outing at Shiloh Park is planned for the near future.

# Intramurals Swing Into Action On FHC Campus

Dick Palmer of the Sigma Rhos and Paul Logan of the Phi Kappas go up for a pass in a game played October 11. The Sigma Rhos won 8-2.

The intramural program on the FHC campus got underway the week of October 1 with competition in touch football, tennis, and horseshoes.

## TOUCH FOOTBALL

The touch football program has been very interesting thus far with close scores and exciting games. The Philos are now in undisputed first place since beating the Sigma Rhos on October 24. The Sigma Rhos are in second place and the Phi Kappas and the Alpha Taus are tied for third place.

The Philos showed much strength, both on offence and defence, by beating the Sigma Rhos and the Alpha Taus by big margins. The good organization and team work of these boys have been a big factor in

their success thus far.

The Sigma Rhos have slipped by the Phi Kappas and the Alpha Taus and will be trying for their first win over the Philos.

The Alpha Taus have managed a win over the Phi Kappas and will be seeking their second win when they meet the Philos on October 31.

The Phi Kappas upset the top-ranked Philos in their first outing and have shown that they can compete with the best.

Not only can we look backward to exciting football, but we can expect more in the future, as winner of the touch football crown is not yet determined.

As we go to press the football standings are as follows:

Philo	3	1	0
Sigma Rho	2	2	0
Alpha Tau	1	2	1
Phi Kappa	1	2	1
